Application Serial No. 10-584,563

SECRECY ORDER

35 U.S.C. §§181-188

and

Permit for Disclosing Classified or "Classifiable" Subject Matter

The above-identified patent application contains subject matter which is either **classified** or "**classifiable**"¹ in the opinion of the sponsoring defense agency.

☒ This application is **CLASSIFIED** at the level of: ☐ TOP SECRET

☐ This application is NOT CLASSIFIED,
but would be **CLASSIFIABLE** at the level of: **DECLASSIFIED BY ORIGINATING AGENCY**

☐ This application was filed pursuant to a foreign
secrecy agreement. ☐ CONFIDENTIAL

**ALL PRINCIPALS² IN THIS APPLICATION ARE ORDERED TO KEEP THE
SUBJECT MATTER THEREOF IN SECRECY UNDER 35 U.S.C. §181.**

**The subject matter of this application may not be published or disclosed to any
person except as specifically authorized herein or subsequently authorized by
written modification of this Secrecy Order granted by the Commissioner of Patents
& Trademarks (see 37 CFR §5.5).**

Unauthorized publication or disclosure of the subject matter of this patent application
may result in abandonment of the application (35 U.S.C. §182) and additionally subject
the person publishing or disclosing the subject matter to the penalties of 35 U.S.C. §186.

¹ The term "classifiable" as used herein refers to subject matter that is not actually classified but is sufficiently sensitive, in the opinion of the sponsoring defense agency named herein, to have been classified under E.O. 12356 if the subject matter were known to be owned by or under control of the U.S. government.

² "Principals" include all patent applicants, their heirs, assignees, licensees and their attorneys and agents.

The subject matter of this application must be safeguarded under conditions that will provide adequate protection and prevent access by unauthorized persons. When copies of the subject matter are no longer needed, they should be destroyed by a method that will prevent disclosure of the contents or reconstruction of the document.

This Order should not be construed in any way to mean that the U.S. Government has adopted or contemplates adoption of the invention disclosed in this application and it is not any indication of the value of such invention. Additionally, this Order is not authority in and of itself for classification of the subject matter of this patent application.

Any other patent application already or hereafter filed in the U.S. or any foreign country which contains any significant part of the subject matter of the above-identified patent application also falls within the scope of this Order. If such other patent application is not currently under a Secrecy Order imposed by the U.S. Patent and Trademark Office, it and the common subject matter must be brought to the immediate attention of:

Mail Stop L&R
Commissioner of Patents
P.O. BOX 1450
ALEXANDRIA, VA 22313-1450

This Secrecy Order was recommended to the Commissioner of Patents & Trademarks by the following sponsoring defense agency:

☒ ARMY
☒ NAVY
☐ AIR FORCE
☐ HOMELAND SECURITY
☐ _____

- Questions regarding the substantive examination of the patent application should be directed to the patent examiner
 - Questions pertaining to the administrative handling of the application or the Secrecy Order should be directed to the Licensing and Review Branch of the Patent & Trademark Office at (571) 272-8203.
 - Hand-carried correspondence should be delivered between the hours of 8:30am and 5:00pm to: Technology Center 3600, Room 4B31, 501 Dulany Street (Knox Building), Alexandria Virginia, 22134.
-

Foreign Treaty Applications

Applications filed under a bilateral foreign treaty agreement will not be subject to annual renewals. Since this application has been filed under a foreign treaty secrecy agreement, the annual requirements of 35 U.S.C. 181 do not apply. The secrecy order will be automatically renewed. The secrecy order however will remain in effect until such time the foreign government, through appropriate channels, notifies the Office that the application should no longer be kept secret pursuant to the secrecy agreement. At that time, a notice of rescission of the secrecy order will be mailed to the applicant.

Permit for Disclosing Classified or "Classifiable" Information

A. If the subject matter of this application is **classified**:

Disclosure of the subject matter of this application is authorized to persons with the appropriate personnel security clearance on a "need-to-know" basis under the provisions of Executive Orders 10865 and 12356 and the "Industrial Security Manual for Safeguarding Classified Information" provided the authorized person to whom the subject matter is disclosed is furnished with a copy of this Secrecy Order and informed that this Order is applicable to the subject matter disclosed.

Any declassification, in whole or in part, of the subject matter of this application does not modify this Secrecy Order. The requirements of this Secrecy Order remain in effect until it is rescinded or modified in writing by the Commissioner of Patents & Trademarks. If the subject matter is declassified, this fact should be brought to the attention of the sponsoring defense agency.

B. If the subject matter of this application is "**classifiable**" but not classified:

Principals to this Secrecy Order employed at a facility which has a current DoD Security Agreement (DoD Form 441) are authorized to disclose on a "need-to-know" basis the subject matter of this patent application to other persons at that facility having a personnel security clearance at least as high as the level of protection specified on page 1 of this Secrecy Order provided the provisions of the "National Industrial Security Program Operating Manual" (DoD 5220.22-M) are complied with³ and the authorized person to whom the subject matter is disclosed is furnished with a copy of this Secrecy Order and informed that this Secrecy Order is applicable to the subject matter disclosed.

Principals employed at a facility that does not have a current DoD Security Agreement must obtain prior written modification of this Secrecy Order from the Commissioner of Patents & Trademarks for any further disclosure of the subject matter of this application to any person. See 37 CFR §5.5.

³ Since the subject matter covered by this Secrecy Order is not actually classified, certain provisions of the Industrial Security Manual (ISM) may not strictly apply, such as derivative classification, downgrading/declassification instructions, and portion and page markings. Facilities encountering problems complying with any provisions of the ISM should directly query the defense agency sponsoring this Secrecy Order for appropriate security guidance.

This permit for disclosing classified or "classifiable" information does not authorize disclosure of the subject matter of the patent application through (1) the filing of any foreign application without specific permission of the Patent and Trademark Office, or (2) the export of any item, commodity or technical data without the required export license.

A handwritten signature in black ink, appearing to read 'M. Hajec', followed by a long horizontal flourish line.

Donald T. Hajec
Director, Technology Center 3600

PERMIT

35 U.S.C. §§181-188

This order of secrecy in the identified application is modified to permit disclosure to such extent as may be duly authorized under any order issued by the Sweden Patent Office restricting disclosure of the subject matter.

This modifying permit may be revoked in whole or in part by appropriate notice. Where disclosure to individuals, as such, is authorized such individuals must be informed of the secrecy and the penalties for unauthorized disclosure as set forth in the secrecy order. Any disclosure herein authorized is further subject to the prohibitions of any classified government contract, the consent of the owner of the subject matter, and the safeguarding of the invention against publication or unauthorized disclosure in this country or elsewhere by all reasonable and due precautions including abandonment of foreign applications when necessary.

Questions regarding the reasons for imposing this Permit should be directed to the sponsoring defense agency. A contact for each defense agency is attached to the original secrecy order. Questions regarding the substantive examination of the patent application should be directed to the patent examiner, and questions pertaining to the administrative handling of the application or the Secrecy Order should be directed to the Licensing and Review Branch of the Patent & Trademark Office.
